

Federated Management Architecture Specification (FMA) 1.0 Errata July 26, 2000

Javadoc-style comments in specification code sections have been significantly modified to provide greater clarity and explanatory material for developers using the FMA API's to develop applications. The following table indicates which API's and the corresponding specification sections that have been modified in this manner.

Package `javax.fma.services.log`

API Affected	Section
LogService	§17.1.2 p. 153
Predicate	§17.1.3.1 p. 154
Search	§17.1.3.2 p. 155
LogMessage	§17.1.1 p. 151
LogSearchCriteria	§17.1.3.1 p. 155
SerializationFailureException	§17.1.1 p. 151

Package `javax.fma.services.event`

API Affected	Section
EventService	§18.3 pp. 163-166
Event	§18.2 p. 160
ResponsibleListenerInfo	§18.3 pp. 163-166
RootEvent	§18.2.3 p. 162
EventNotHandledException	§18.5 p. 168
RemoveListenerException	§18.6.4 p. 170
UnknownListenerException	§18.3 p. 167

Package `javax.fma.services.scheduling`

API Affected	Section
SchedulingService	§19.1 pp. 176-178
Schedule	§19.1 pp. 176-178
Ticket	§19.1 pp. 176-178

Package `javax.fma.common`

API Affected	Section
Proxy	§4.16.1 p. 60
